M^NUTEMAN

The Minuteman has **everything a respectable rifle needs and nothing it doesn't**. The Minuteman is our twist on what a direct impingement sporting carbine should be, topped with the controls and enhancements most important to remain mobile and light.

Just mount your favorite optic and it is ready for the range or the field right out of the box. Go ahead and stack the Minuteman's features up to your favorite "other brand" carbine. We think you'll be impressed.

Rio Salado Sportsman's club operates on 140 acres of land owned by Arizona Game & Fish. The facility is well equipped and maintained, including:

- Covered shooting benches with target holders from 25 to 300 yard
- Practical Pistol range with 4 lighted bays from 25 to 50 yards
- Lighted, covered 40-position Small-bore Range to 100 meters
- Covered long range rifle and pistol silhouette ranges to 500 meters
- High power rifle range to 500 yards
- Sporting Clays Range - 16 stations, card-based activation
- 5-Stand, Trap, Wobble Trap facility with lights and voice activation
- Restrooms, Activity Center, and Training Classrooms

Range Safety Officers are on duty and available to assist you!

Visit the Rio Salado Sportsman's club website at www.RSSCAZ.com

Location: 3960 N Usery Pass Road, Mesa, Arizona
Seven miles North of Highway 60 (Ellsworth Road Exit).

Hours: 7:00 AM to 5:00 PM, seven days a week.
Closed at 2pm on Christmas Eve and New Year's Eve
Closed New Year's Day, Easter, Thanksgiving & Christmas Day

Note: Safety is our paramount concern. Eye protection must always be worn while outdoors after entering the main gate.

Eye protection may be purchased at the public range for a nominal amount.

Minors under 6 years old are not permitted on the Public or Sporting Clay ranges.

The RioMultigun Division sponsors SMM3G each year in March, as well as the AZ PCC Championship and ROCW each year in the fall.

Additionally, RioMultigun hosts monthly matches, including: Black Rifle (1st Saturday of the month), Multigun (2nd Saturday of the month) and Tac Shotgun/PCC (3rd Thursday of the month)

PREMIER MATCH SPONSOR
AERO PRECISION

A man in tactical gear, including a white long-sleeved shirt, a black vest with an American flag patch, and large black headphones, is aiming a black rifle. He is wearing safety glasses and has a focused expression. The background is a dark, industrial-looking structure.

BUILT FOR: COMPETITION

Built. It's a simple word, but it implies that you've personalized your rifle for a specific need. Aero Precision EPC receivers are specifically designed to enhance every aspect of your build process, ensuring that you receive a quality experience at a great value.

What are you building for?

[AEROPRECISIONUSA.COM](https://aeroprecisionusa.com)

2021 SMM3G Match Dedication

Frank Lynn DeSomma (1962-2020)

Frank DeSomma was a father, husband, brother, engineer, inventor, innovator, entrepreneur, and a philanthropist. Despite surgery for a brain tumor in 1992 that affected his hearing, vision, and dexterity, Frank never quit or took pity upon himself. Frank formed the Patriot Ordnance Factory in 2002 to “build the ultimate fighting machines,” some of the best AR platform rifles ever built. Patriot Ordnance Factory has been the Overall Match Sponsor of the Superstition Mountain Mystery 3 Gun since 2010.

Frank didn’t care about money, he called it “... paper with ink on it” and was extremely generous, almost to a fault. Frank did care about such things as conservative values, the U.S. Constitution, the Bill of Rights (especially the First and Second Amendments), and the “Thin Blue Line.” That is what earned him the title, “Mr. Patriot.”

Frank lost his life on June 18, 2020 in a traffic accident caused by another grossly negligent driver. The other driver remains at large and would be subject to criminal prosecution. Frank will be sorely missed. It reminds us that we should value each day that we have on earth because it may be our last due to no fault of our own.

Ron Aschenbach

SMM3G Match Director

Match Policies and Range Rules

These policies and rules are important – all competitors are expected to read and understand them.

Match-Specific Rules

This match is governed by the current version of IMA-SMM3G rules. These rules may be different from the rules you are used to. To avoid any unfortunate misunderstandings, please take the time to download a copy from our website (riomultigun.com/rules) and review it before you shoot.

2-Gun Division

We are offering a 2-Gun division this year. To keep things simple, there is only one option: Stealth 2-Gun. Competitors who sign up for this division will be subject to all the regular Stealth Division rules for pistol and rifle, but they will not use a shotgun. Because we are not offering a 2-Gun Open division, 2-gunners should be absolutely certain they are compliant with all Stealth Division requirements because we will have nowhere to move them to if they are out of compliance. If in doubt, please ask us before shooting.

Firearm Handling & Chamber Flags

Rio Salado Sportsman's Club has a cold range policy, meaning that firearms must remain unloaded at all times except under the direction of an Event Official or Range Officer. Firearm handling may only be conducted in designated locations (see Rule 2.3).

Open Bolt Indicators ("chamber flags") are required for all long guns. During the Make Ready sequence, the competitor should give their chamber flag to an Event Official – the Official will re-insert or hand back the chamber flag after completion of the Unload & Show Clear sequence.

Unsafe Ammunition

Rule 3.4 lists ammunition types that are prohibited, including ammunition with projectiles that contain steel. The mere possession of such ammunition is grounds for match disqualification. Each year we disqualify competitors for violating this rule out of ignorance; there are numerous types of military and commercial ammunition of both domestic and foreign manufacture that incorporate steel jacketed or cored projectiles, and this fact is not always obvious. If you are not absolutely certain that your projectiles are steel-free, we strongly encourage you to use the magnet provided in the Registration Building to check your projectiles for compliance.

Vendors & Exhibitors

All vending and sales must take place in the designated Vendor Areas. Only authorized sponsors and exhibitors are permitted to trade in these areas. Any unauthorized persons found trading will be asked to leave the range.

Side Matches & Demo Area

Side matches are optional. They are located at the Demo Range on Practical Bay 4 (adjacent to Stage 3). A time slot has been allocated for each squad to participate in events in this area if they wish.

Lunch Schedule

Squads will break for lunch according to the published schedule (see page 59). Due to COVID restrictions, there will be no on-site food vendors this year so please plan accordingly.

Parking Restrictions

The “Restricted Parking” zones (indicated on the range map on page 51, and with signs) are off-limit to all motorized vehicles except those displaying a parking pass issued by the Range Master (usually for staff, vendors and disabled competitors only). If you think you qualify for a parking pass, you can request one at the Registration Building.

Unauthorized vehicles found in the Restricted Parking zones will incur a +5-second procedural penalty for each passenger at whichever stage is closest to the location of the offense. Repeat offenders and non-competitors may be subject to the provisions of Rule 1.6.

Photography, Videography & Drone Policy

Recording of photographic and/or video imagery by competitors and spectators for personal use is permitted. Recording for commercial use must be approved in advance by the Match Director. Persons recording all such imagery (except the current shooter) must remain behind the rear-most fault line of the stage while it is being shot. The use of drones must be approved in advance by the Match Director.

Lost Brass

This is a lost brass match. Fired cartridge cases are deemed to be the property of the staff assigned to that stage. This policy applies for the duration of the event, from the start of the Staff Match through the end of tear-down on Sunday.

Alcoholic Beverages

Alcoholic beverages are prohibited on Rio Salado Sportsman’s Club property.

Personal Protective Equipment & Hazard Areas

Competitors and spectators are required to wear eye and ear protection. Climbing on the hillsides or berms is prohibited. Children should be supervised at all times. Please do not cross any hazard lines (denoted by caution tape or rope).

First Aid & Shooter Services

First Aid kits and Automated External Defibrillators (AED) are located in buildings throughout the range. The Registration Building also serves as an information center and lost-and-found collection point.

Written Stage Briefings

The courses of fire may differ from those shown in this book. The versions posted at the stages take precedence. All vision barriers and walls are classified as hard cover and are presumed to extend down to the ground and up to the height as built unless otherwise stated in the Written Stage Briefing. Open fault lines are deemed to extend infinitely. In the interest of clarity, No-Shoot targets and barriers are not always shown.

Although stage designs will basically be the same for all divisions, 2-Gun competitors will have several unique and different stage procedures. We will publish two separate versions of the match book – 2-Gun and 3-Gun – and the written stage briefings for both 2-gunners and 3-gunners will be posted on each stage. Please be sure to read only the briefing pertaining to your chosen division, inspect each stage carefully and ask Officials for any clarifications before you shoot.

Pre-Load Policy

Our pre-load policy may differ from what you are used to. Every stage will have the On-Deck competitor fully pre-load all firearms required for that stage (not just shotgun). When it is your turn, simply present yourself at the pre-load area with everything you need for the stage and follow the posted instructions under the guidance of the pre-load Event Official. Loaded long guns should be carried from the pre-load area to the start location(s) in a reasonably vertical orientation, muzzle UP. A brief sight picture may be taken from the start location(s) per rule 1.10.

There will also be a dedicated staging area for the In-the-Hole competitor and their equipment in preparation to pre-load. Please help us stay on schedule by being ready and having all your gear organized when you are called up.

Taping & Resetting Targets

Competitors are required to help tape targets and reset the stage. Please do not reset targets until they have been scored. If in doubt, wait and ask an Official.

Score Records

The primary score recording device will be the electronic tablet on each stage, with backup on paper summary sheets (one per squad). If you want a record of your score, please take a photograph of the paper scoresheet before you leave the stage. Scores will be updated regularly in PractiScore.

Steel Target Paint Refresh Policy

Steel pistol and shotgun targets will be a gray color and will not be painted after the start of the match. Steel rifle targets will be a blue color and will be painted once per day (overnight).

Public Range

Registered competitors may use the Public Range during match days to check zero, function fire, etc. They will be required to present their competitor badge to gain access to the assigned shooting lanes.

Placement, Prize Tables & Category Awards

Placement for each division will be calculated per Rule 6.2. There will be separate prize tables for Open, Stealth 2-Gun, Stealth 3-Gun, Tactical, Limited and Heavy Metal divisions. Competitors will be called up to walk their respective prize tables in their order of finish.

Competitors who cannot be present to walk the prize table or accept an award may designate another person to “walk” on their behalf. To do so, the designated person must have the competitor’s shooter ID badge and a signed copy of the delegation form (available from Stephanie in stats or prize/sponsor coordinators Mick or Neil).

All FFL items held for subsequent shipping/transfer must be claimed within 90 days, failing which the prize will be forfeited.

One trophy will be awarded for each competitor category (Lady, Junior, Senior, Super Senior, Military and LEO). The winner will be determined first based on their percentage score within their division, then (in the case of ties) by stage percentage in their worst stage.

AVAILABLE IN .308, 6.5 CREEDMOOR,
AND PISTOL CONFIGURATION

2 GUN

STAGE 1:

Fort Ticonderoga

Targets:

7 Pistol (USPSA, falling steel)
11 Rifle (IPSC, reactive steel)

Start Position:

Standing in Area A, pistol loaded/safe/holstered, strong hand touching traffic cone. Rifle loaded/safe/staged in a long gun barrel.

Procedure:

On signal, engage pT1-pT3 with pistol from Area A, then engage pT4-pT7 with pistol from Area B, then safely abandon pistol in the pistol bin. Next, engage rT1-rT8 with rifle from Area B, then engage rT9-rT11 with rifle from Area C.

Targets rT9 & rT10 incur enhanced penalties (unhit = +20 secs, unengaged = +30 seconds).

Event Officials will call hits on targets sT1-sT3, rT9 & rT10 only.

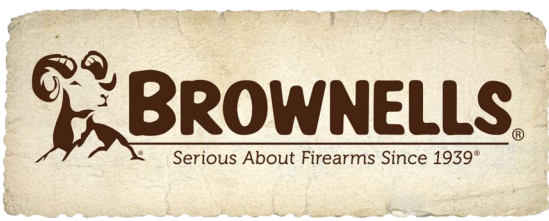

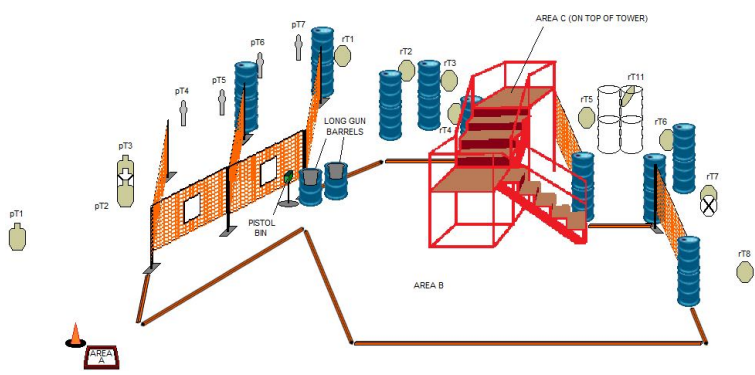

Exclusive

Stage Sponsor:

Brownells

STAGE 1: Fort Ticonderoga

2 GUN

STAGE 2:

A Dog is a Fine Meal

Targets:

6 Rifle (IPSC)
19 Pistol (USPSA, reactive steel)

Start Position:

Standing anywhere in the Shooting Area. Rifle either (i) loaded/safe/butt touching belt, or (ii) loaded/safe/staged in a long gun barrel/arms relaxed at sides. Pistol loaded/safe/holstered.

Procedure:

On signal, engage pT1-pT19 with pistol and engage rT1-rT6 with rifle from within the Shooting Area.

Yellow steel No Shoot targets incur penalties if they fall.

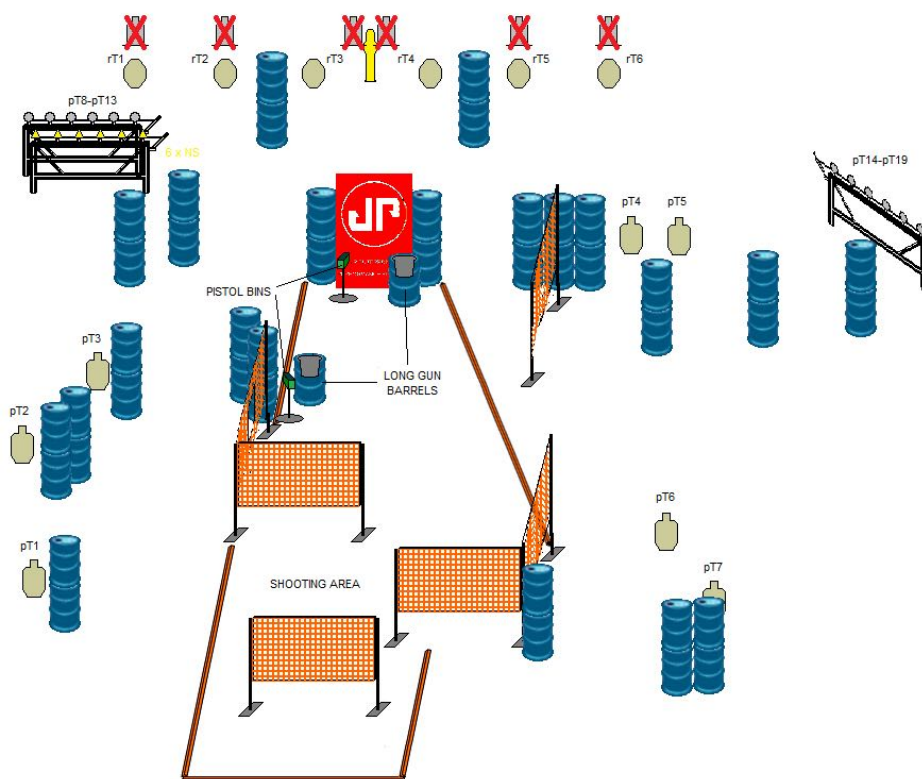

Stage Sponsors:

Lee Armory
Trijicon

STAGE 2: A Dog is a Fine Meal

2 GUN

STAGE 3: Declaration of Independence

Targets: 16 Pistol (USPSA, falling steel)
10 Rifle (IPSC, reactive steel)

Start Position: Standing in Shooting Area, hands touching respective X-marks. Rifle loaded/safe/staged in car trunk (trunk is open). Pistol loaded/safe/holstered.

Procedure: On signal, engage pT1-pT16 with pistol from the Shooting Area, then safely abandon pistol in pistol bin. Next engage rT1-rT4 with rifle from the Shooting Area, and engage rT5-rT10 with rifle through Port 1, and engage rT5-rT10 with rifle through Port 2.

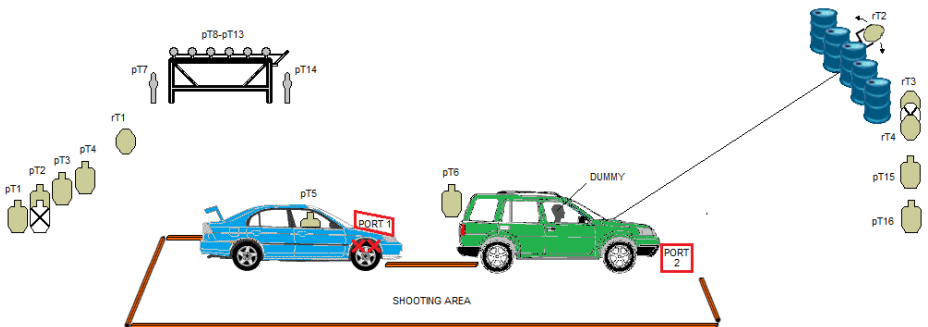

Pulling the dummy out of the truck activates moving target rT2 as demonstrated.

Event Officials will call hits on targets rT5-rT10 only.

24 Pistol (USPSA, falling steel)

Start Position:

Sitting on X-mark in Area A (inside helicopter). Rifle loaded/safe/muzzle touching O-mark. Pistol loaded/safe/holstered.

Procedure:

On signal, engage rT1-rT5 with rifle from Area A through front port, then engage rT1-rT9 with rifle from Area A through rear port, then safely abandon rifle in the rifle barrel. Next, engage pT1-pT24 with pistol from Area B.

Event Officials will call hits on targets rT1-rT5 only.

POF USA

American INGENUITY

ROGUE

5.9 pounds.

That's all you'll need to carry in a semi-auto rifle capable of taking down any game animal in North America.

The Rogue is the lightest .308 AR in the world and the same size as your AR-15... except it's lighter and more capable.

Plus, thanks to its ridiculously light weight, never before has a semi auto .308 been a more realistic option to carry in the field, no matter how far the journey.

.22 LR JUST GOT BETTER AND MORE FUN

REBEL^{.22}
NEW!

Get ready for the most fun you've had with a .22LR! The Rebel delivers smiles to all who shoot it. Our love of shooting, training, and prepping future shooters were the driving factors of development.

We had to bring a quality to this platform which hasn't been seen before. Aside from its incredible light weight, the Rebel is equipped with an MFT pistol blade and threaded barrel with thread protector. The receiver accepts AR-15 pattern stock and brace options, and the trigger and selector are also compatible with AR-15 options. To top it off, it accepts the widely available 10/22[®] magazine.
